

5.0L Reverse Osmosis Countertop Ro Water Purifier Filter System ODM

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Envitek
- Certification: ETL CB EMC LVD ERP ROHS
- Model Number: AR304B-75G
- Packaging Details: color box+master carton
- Delivery Time: 30
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 10000 PCS/MONTH

Product Specification

- Material: ABS
- Color: White Or Customize
- Installation: Countertop
- Application: Home Use
- Custom: Accepted
- Temperature: Room
- Highlight: ODM Countertop Ro Water Purifier,
5.0L Countertop Ro Water Purifier,
5.0L reverse osmosis water filter countertop

Product Description

Countertop RO Water Machine: The Intimate Companion of Pure Water

On your kitchen countertop, there is a "little guard" that silently guards your drinking water health - the countertop RO water machine.

It is like a magical box that can produce pure and sweet good water for you.

From the appearance, it is exquisite and small, with smooth lines, simple yet fashionable. Whether your kitchen is modern or traditional, it can blend in perfectly, not taking up too much space but still very eye-catching.

Let's talk about its core technology - reverse osmosis (RO) technology. This is a powerful "magic weapon" that can keep all those harmful substances that we can't see with the naked eye in the water, such as heavy metals, bacteria, viruses, etc., out and only let pure water molecules pass through.

It also has a set of "combined punches" of multi-stage filtration. The PP cotton filter element is like a brave pioneer, blocking large particle impurities first; the activated carbon filter element is like a deodorization master, adsorbing odors and residual chlorine; and the RO membrane is like the final gatekeeper, ensuring the water quality is pure and flawless.

Moreover, this water machine is very intelligent. When the raw water is insufficient, it will stop working smartly; when the water storage bucket is full, it also knows to "rest".

The water produced by it is of excellent quality. Whether it is for direct drinking or for cooking, making tea, and making soup, it can allow you to taste the purest flavor. It can also care for your skin when used for washing.

The countertop RO water machine is such an intimate and reliable partner, always providing you with pure good water.

Model	AR304B-75G
Filtration Capacity	11.8L/h
Rated Power	48 W
Purification Capacity	1.2L
Source Water Tank	5.0L
Product size	L461*W236*H411mm

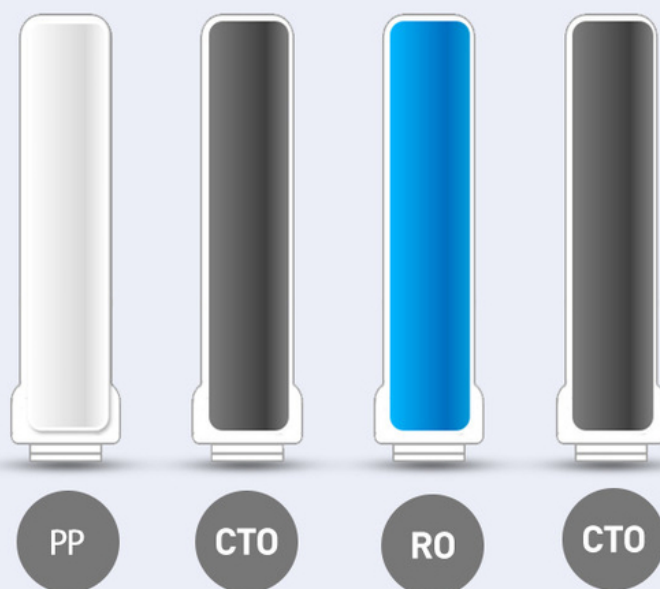

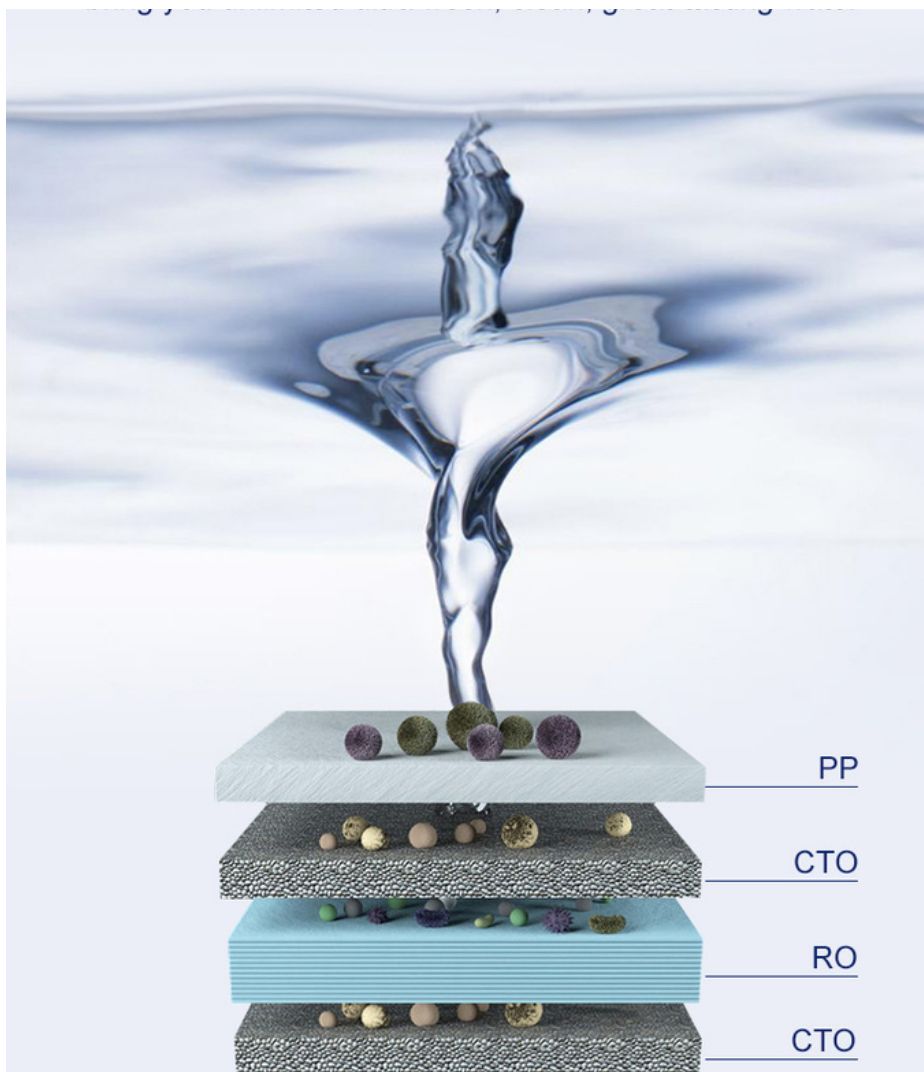

Product Features:

- Counter top reverse osmosis water filter system with pitcher in one full set
- No assembly required, no installment, easy to use
- 5 Levels of filtration, removes up to 99% of all contaminants
- 4 stage water temperature with instant heating system in 3 seconds
- Quantitative water setting: 150ml/250ml/Continuous
- LED screen displays real time filters status and TDS value
- Water-saving designed
- UV C light: removal of bacteria, viruses, and mold spores
- Wi-Fi for option

Food Waste Disposer Principle:

5 Stages Filtration System

5 Levels of filtration, PP+Composite CTO+RO+CTO,
bring you unlimited ultra-fresh. clean. great-tasting water

Stage1:Pre-filter (PP) removes big particles of dust, mud and rust stains.

Stage2 and 3:The Composite CTO filter eliminates unseen dregs and harmful odors.

Stage4:The High grade 0.0001 micron RO filter removes up to 99.9% of contaminants including chlorine, lead, heavy metals, fluoride, VOCs, chloramine, etc.

Stage5:The post-carbon filter (CTO) help improve the taste of the water
